Phase Hockey Training is proud to be offering the best 3 on 3 developmental hockey league in the Tri-city and surrounding areas. 3 on 3 hockey is an important part of the development of the overall hockey player. 3 on 3 allows for increased endurance, time and space to work on creativity, more puck touches and improved confidence and ultimately a better hockey player in a fun atmosphere.

All players involved with the **Phase** Hockey 3 on 3 programs will be offered the chance to improve their game at their own pace in a fun, stress-free environment. Lines will play against each other based on age and skill level, thereby offering players a chance to feel good about themselves every time they step on the ice creating a positive attitude towards the best game on ice.

The divisions are divided up on a 3 on 3 or a 4 on 4 depending on age. This will allow for optimum skill development in 60 minute time span, which is the goal of our program.

Phase Hockey will always have an owner present, or someone employed by PHT, at all the games to help deal with any issues or concerns that may arise during the course of any game. This will ensure that someone will always be present that has a vested interest in your child's safety and happiness. We take your child's well being seriously and feel honoured that you are allowing your child to participate in our program - their safety and enjoyment of the game is our top priority. We will offer you and your child a professional program that is run by people who have a wide range of hockey playing, coaching and management experience.

Our goal is to have your child experience hockey in an enjoyable atmosphere. Get away from the pressures of systems instilled throughout the year and go out and be creative on the ice. Have fun playing the best game in the world!
